

### **Calicylic Cream** (sold with pumi bar)

- Application: Once or twice a day
- Use: Helps to exfoliate and soften dry, scaly or calloused skin
  - Salicylic acid exfoliates dry skin and breaks down dead and scaly skin to make room for new tissue growth
  - Urea is a moisturizer. It adds elasticity to the skin and restores damaged skin

### **Vita Ray Cream**

- Application: Once or twice a day
- Use: After surgery to help regenerate skin and help with anti-scarring
  - Vitamin A helps to increase the amount of protein and thickness of the skin surface; Vitamin E helps to revitalize skin tissue

### **Amerigel Lotion**

- Use: It is an antimicrobial, antifungal, anti-inflammatory and antipruritic lotion (so basically it kills microorganisms and fungus and helps with inflammation and itchy skin)
  - Contains Oakin, which helps fight infections and inflammation
  - Rehydrates and soothes dry skin, softens and exfoliates corns and calluses, moisturizes and promotes healthy skin, safe for sensitive skin
  - Great for diabetics

### **Amerigel Wound Dressing**

- Use: Used for permanent nail procedures
  - Provides a moist wound environment which accelerates healing
  - It contains Oakin, which helps fight infections and inflammation
  - Easy for our patients to use

### **Formula 3**

- Application: Twice a day on infected or all toenails
- Use: Fight toenail fungus
  - Contains Tolnaftate which includes an oil that is easily absorbed by the skin and penetrates directly to the fungus

### **Fungi foam**

- Application: Twice a day
- Use: Treats Athletes Foot
  - Contains the benefits of FOUR medications in one – antifungal, antipruritic, moisturizer and exfoliator
  - Can be used between the toes whereas most creams cannot be

### **Biofreeze**

- Application: Use up to 4 times a day
- Use: Topical pain reliever
  - Contains Menthol as the active ingredient
  - Works by using cold therapy to block pain sensation
  - Is easier, works faster and with less discomfort than using ice
  - Comes in a roll-on, gel or spray

### **Dancer Pads**

- Use: Help with calluses, warts or other painful areas on the feet
  - Half-moon cut out area is used to off lift weight and pressure

### **Bunion Night Splint**

- Use: Help bunions
  - Used during the night to help relieve pain from bunions and to help slow down the progression of the bunion
  - Used after bunionectomy surgeries to prevent bunion from forming again
